Examiner's Statement of Reasons for Allowance

1. This office action is in response to the application filed on amendment filed on October 11, 2005.
2. Claims 2-4, 6, 8-23, and 25-30 are allowed.
3. Claims include limitations that the prior art of record does not appear to teach or render obvious the claimed limitations as recited below.
4. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior arts of record are Schutte et al. U.S. Patent 6,178,455 and Taniguchi et al. ("Subnet Configuration Option Set for DHCP" <draft-ietf-dhcp-dyn-subnet-conf-02.txt, 2 March 1998, pages 1-14). Schutte teaches a system/method for a cable router capable of requesting and obtaining a set of IP addresses and assigning a set of IP addresses to requested hosts. Taniguchi teaches a method for determining if there is no address available in the pool the DHCP can try to borrow wider subnet address and if the wider subnet inspects subnet address table and if the address space is free it will provide the address to the requester. However, the prior art of record fails to teach or suggest individually or in combination as stated in claims 8, 21, 22, and 25-27 "determining usage of the first set of network addresses wherein the usage comprises a proportion of a number of network addresses used compared to a total number of addresses in the first set, and sending, before the first time interval expires, a second request for renewal of use of the first set; and the second request includes data indicating the usage of the first set" and in combination with other limitations as set forth in the independent claims. Claims 2-4, 6, 9-20, 23, and 28-30 are allowed due to dependent claims.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
